

Tee Woan Chin

4 years of experience coding. Knows Scala, Kotlin, Java, some React.

EXPERIENCE

Citi, Singapore — Application Developer

July 2018 - PRESENT

Part of the Technology Analyst program.

2nd Year Rotation to Present: CitiQuote, Equities

Created an API written in Scala using Play framework to fetch Termsheets and Key Information Documents from MYA for our clients. Created Release-on-Demand projects for my team for faster releases. Ported some current services onto Citi Lightspeed to take advantage of Docker, Openshift and Jenkins.

1st Year Rotation: Market Data, FX

Worked with C# webservices. Upgraded internal libraries. Set up project's Teamcity and Udeploy components.

Litescape Technologies, San Francisco — Software Developer

August 2016 - August 2017

Maintained a web app in C# for a telephony service startup. Built new web app technologies in React for their Minimum Viable Product demos.

EDUCATION

National University of Singapore

Bachelor of Computing - Computational Biology

Apr 2014 - Aug 2018

PROJECTS

Project Name — Personal Website (Work in Progress)

<https://chika-snowy.vercel.app/>

First personal website built using Vercel, React and Chakra-UI under 2 weeks.
